

KAZAKH RUSSIAN MEDICAL UNIVERSITY ALMATY KAZAKHSTAN

Est. - 1992

КАЗАХСТАНСКО-РОССИЙСКИЙ МЕДИЦИНСКИЙ УНИВЕРСИТЕТ

About Kazakhstan

President Nazarbayev
Kazakhstan's
Leader for more than two decades

In the heart of Eurasia there is the country of Kazakhstan that shares borders with Russia, China, Kyrgyzstan, Turkmenistan, Uzbekistan and Azerbaijan.

State: Independent since 1991. Capital — Astana. Population — about 15 million (57% Kazakh, 30% Russian, 4% German, 3% Ukrainian: other significant minorities include Uighurs, Uzbeks, Belorussians, Dungans, Koreans, Chechens, and Greeks).
President — Mr. Nursultan Nazarbayev.

Language: The official language is Kazakh, a Turkic language closely related to Uzbek, Kyrgyz, Turkmen and Turkish. The Government has undertaken to replace the Russian Cyrillic alphabet with the Turkish version of the Roman alphabet. However, the Cyrillic alphabet is currently still in general use, and most people in the cities speak Russian, whereas in rural areas people tend to speak only Kazakh. The younger generation and people working in tourism often speak English. Uighur and other regional languages and dialects are also spoken.

Population : 17, 2 million people.

Money: The national currency is the Tenge (KZT). There are lots of ATMs in the city center.

Telephone: Kazakhstan's country code is 7. The area code for Almaty is 727. International calls can be made from a regular phone.

Post: Full postal facilities are available at the main post offices in the cities, which are open seven days a week. The main Post Office in Almaty is located on Kurmangazy Street.

Security: After passing through customs control you should not hand over your passport to anyone who does not show official identification. The loss or theft abroad of your passport should be reported immediately to the local police and your Embassy.

The police must be treated respectfully and with caution. Kazakhstan police officials advise that a legitimate police officer should not be randomly checking pedestrians for identification. A genuine police official should always present his own credentials when approaching someone in the street. If he does not, you should ask to see his credentials. If the officer cannot produce authentic identification, he is most likely an impostor. Do not under any circumstances give anyone documents, personal possessions, money etc..

Official holidays in the Republic of Kazakhstan

State Holidays

- ◆ New Year — January 1-2;
- ◆ International Women's Day — March 8;
- ◆ Nauryz — March 21 through 23;
- ◆ Kazakhstan Peoples Solidarity Holiday — May 1;
- ◆ Victory Day — May 9;
- ◆ Capital City Day — July 6;
- ◆ The Republic of Kazakhstan Constitution Day — August 30.

National Holiday

- ◆ Independence Day — December 16;

The history of the state goes back to the prosperous times of the scythians and Nomads, the great steppe conquerors. It was the area of modern Kazakhstan where one of the northern routes of the Great Silk Road passed, encouraging a better familiarity and understanding between West and East by an exchange of goods, knowledge and culture. Modern Kazakhstan has a rapidly developing economy, unique natural wealth and incredible tourist sites. Another highlight of the region is that almost all manned spacecraft take off from Baikonur Cosmodrome in the south of central Kazakhstan.

We invite to visit Almaty, the cultural, financial, trading and tourist capital of Kazakhstan as well as a pearl of the Alatau Mountains!

This country is a home of hospitable people called the Kazakhs or Kazakhstanis.

They are known for their openness, friendliness,
generosity of soul and hospitality.

About City Almaty

A City at the feet of the mountains

Almaty, also known by its former names Verny and Alma-Ata, is the former capital of Kazakhstan and the nation's largest city, with a population of 1,404,000 (2010). This represents approximately 9% of the population of the country.

Almaty was the capital of the Kazakh SSR and its successor Kazakhstan from 1929 to 1997. Despite losing its status as the capital to Astana in 1997, Almaty remains the major commercial center of Kazakhstan. The city is located in a mountainous area of southern Kazakhstan, near the border with Kyrgyzstan.

Almaty facts

The word "Almaty" in Kazakh people language means "grown with apple trees". The first Kazakh scholar Chokan Valikhanov observed: "Almaty city was known for its trade and was a trading post on a high road." Apples were no doubt one of the important commodities. Anyway, Alma-Ata city has been famous for them to this day.

The new General Plan of Almaty for 2030 was developed in 1998. It is intended to create ecologically safe, secure, and socially comfortable living conditions in the city. It proposes continued multi-storied and single-housing development, reorganization of industrial districts or territories, improving transport infrastructure, and expanding Almaty Metro. The first line of Almaty metro was launched on 2011, two weeks ahead of schedule. The extension of the line to Kalkaman was opened in 2015.

Numerous apartment blocks and office skyscrapers have transformed the face of the town, which has been built into the mountains.

Almaty a city lying at the foothills of the Tien shan mountains that rise majestically into the sky. Almaty is a city of kind and beautiful people, grand architecture, and fragrant apples.

Broad avenues and boulevards crisscross the expansive city, dotted with lush green parks and the high snow capped mountains that surround the city. The Tien Shan Mountains have also helped to develop Almaty as an attractive resort designation offering a rich choice of winter activities such as skiing and ice-skating, and of summer activities such as swimming and hiking.

◆ Fire	102
◆ Gas alert	104

Almaty is the largest city of the Republic of Kazakhstan, holding the leading positions in Central Asia. by the special Law Almaty was endowed with the special status of the city of national importance. It is one of the most promising and dynamically developing cities. The drive to evolve into the financial, educational, scientific-and-innovation, transport-and-logistical, cultral, and sports and tourist center determines its progress.

The city of political, financial, business and scientific lie is a modern metropolis which attract people not only with restaurants and cafes to suit all tastes, but also with its quiet green parks, spacious shopping mall, museums and architectural monuments, as well as its welcoming citizens and their openness, friendliness, and generosity of soul.

Many citizens of Kazakhstan dream of becoming residents of this city. In Almaty there is a tendency to a steady growth in the population which since independence has increased by 400, 000. Life expectancy is also increasing, growing by two years over the past decade and standing now at an average of 73 years. All this has become possible thanks to improved living standards and to a series of measures implemented to improve the quality of and access to health and social care, as well as the increased effectiveness of prevention.

Almaty, like Kazakhstan as a whole, is multi-ethnic and the city is home to about 120 ethnic groups. The years of independence have been characterised by a significant increase in prosperity. In terms of wage levels the city is one of the leading places among the country's regions with salaries some 40% higher than the national average. At the same time, the income levels of residents are twice as high as in the rest of the country.

Almaty is a sunny, cozy, lush green city with wide streets, beautiful architecture and numerous parks and gardens. Many central streets and avenues run downhill, from south to north, following the example of such turbulent rivers as the Greater and Lesser Almaty Rivers, the Esentai, and a score of other streams rushing down to form cascades, feeding the canals and the fountains. The sparkling snow-capped peaks of the Ili-Alatau, the green parks and gardens, the rainbow of the fountains, and the sparkle of the glass and steel of the new building make the face of the modern Almaty. This is one of the most beautiful cities in Kazakhstan.

The city name comes from that of the erstwhile settlement which flourished in the very same place during the heyday of the Silk Road (Almaty - Apple). The mountains, the snow leopard (irbis), and the apple are the symbols of the city.

About University

Kazakh-Russian Medical University is one of the largest universities in the country (State License AB 002646). KRMU had passed four central certifications (1998, 2003, 2007, 2012). Kazakh Russian Medical University, formerly Kazakhstani Medical Institute, had opened its doors in 1992, in the wake of major political and economic reforms, when the important role was given to the reforms of science and higher education. One of the first independent graduate university and higher education. One of the first independent graduate university in CIS was founded by Dr. Mukhtar Aliyevich Aliyev, the Member of the Academy of sciences of the Republic of Kazakhstan, the President of the Academy of Medical Sciences of the Republic of Kazakhstan, the Member of the international Association of Surgeons, and the National Hero of Kazakhstan together with Professor K.M. Maskeev and Assistant Professors V.S. Holubchenko and A.O.Panova.

The educational program of the university meets the state standard of education. At the same time, new forms and methods of teaching to improve medical education in the country were successfully tested at the University.

The educational process is guided by more than 200 professors, among them are the medical doctors with a worldwide reputations and well-known Kazakhstani and foreign scientists. The students also have the opportunity to study and practice abroad by the program of academic mobility.

The education is provided both on a contract basis, and well as by educational grants of the state. We abstain from forming large academic groups, keeping the number down to only 6-10 students. This allows to provide personalized approach to our students.

Students have the opportunity to choose their training language (Kazakh or Russian), and are given the intensive course of foreign language studies beginning from their first year.

Practical training by the specific clinical disciplines is conducted in leading medical centers in Almaty.

Rector Message

As a Rector of Kazakh Russian Medical University, I have pleasure to warm welcome you. We are proud to be the part of great medical profession. We are providing medical MD programs, post graduation, dental and pharmaceutical education with modern computerized technology, electronic communication in english medium. A number of high level of international academic conferences, participation with other universities, a best high level of professional instructors, well equipped study premises, books fund, opportunity to work on unique modern research technology all these premises complete the fulfill of aspiring candidates who have dream to become good doctor.

The curriculum in our programs have incorporated innovative trends in education with emphasis on a student-centered approach. We also train our students on evidence-based approach to decision making, professionalism and ethics, leadership, teamwork and encourage them to participate in research activities and community services. They learn to become self learners and life-long learners in order to adapt to the ever-changing advances in the biomedical and clinical field.

The most important aim of KRMU is not only to provide your best education to become good doctor and to help the person overcome a disease but also display kindness, high morals and to work for positive development of human being.

I welcome the aspiring candidates those who have dreams to become a doctor and to serve the society. Entire KRMU, our professors, doctors, facilities and programs were able to provide you greatest opportunity to achieve your goals.

Thank You.

Professor
Nurlan Temirbekovich Jainakbayev
M.D.
(RECTOR KRMU)

Computer Lab

LIBRARY

KRMU have excellent library including latest medical books in Russian & English language. All books are updated according WHO series. KRMU library have large collection of medical books including subjects like Anatomy, Physiology, Medical Histology, Molecular Biology, Dermatology, Pediatrics, Pharmacology, Microbiology, Pathology, Surgery, Internal Medicine, Orthopedics, ENT, Neurology, Therapy, Oncology, Endocrinology etc.

Student can be registered in library through student card of KRMU and can receive any kind of book for study purpose.

Clinical Approach

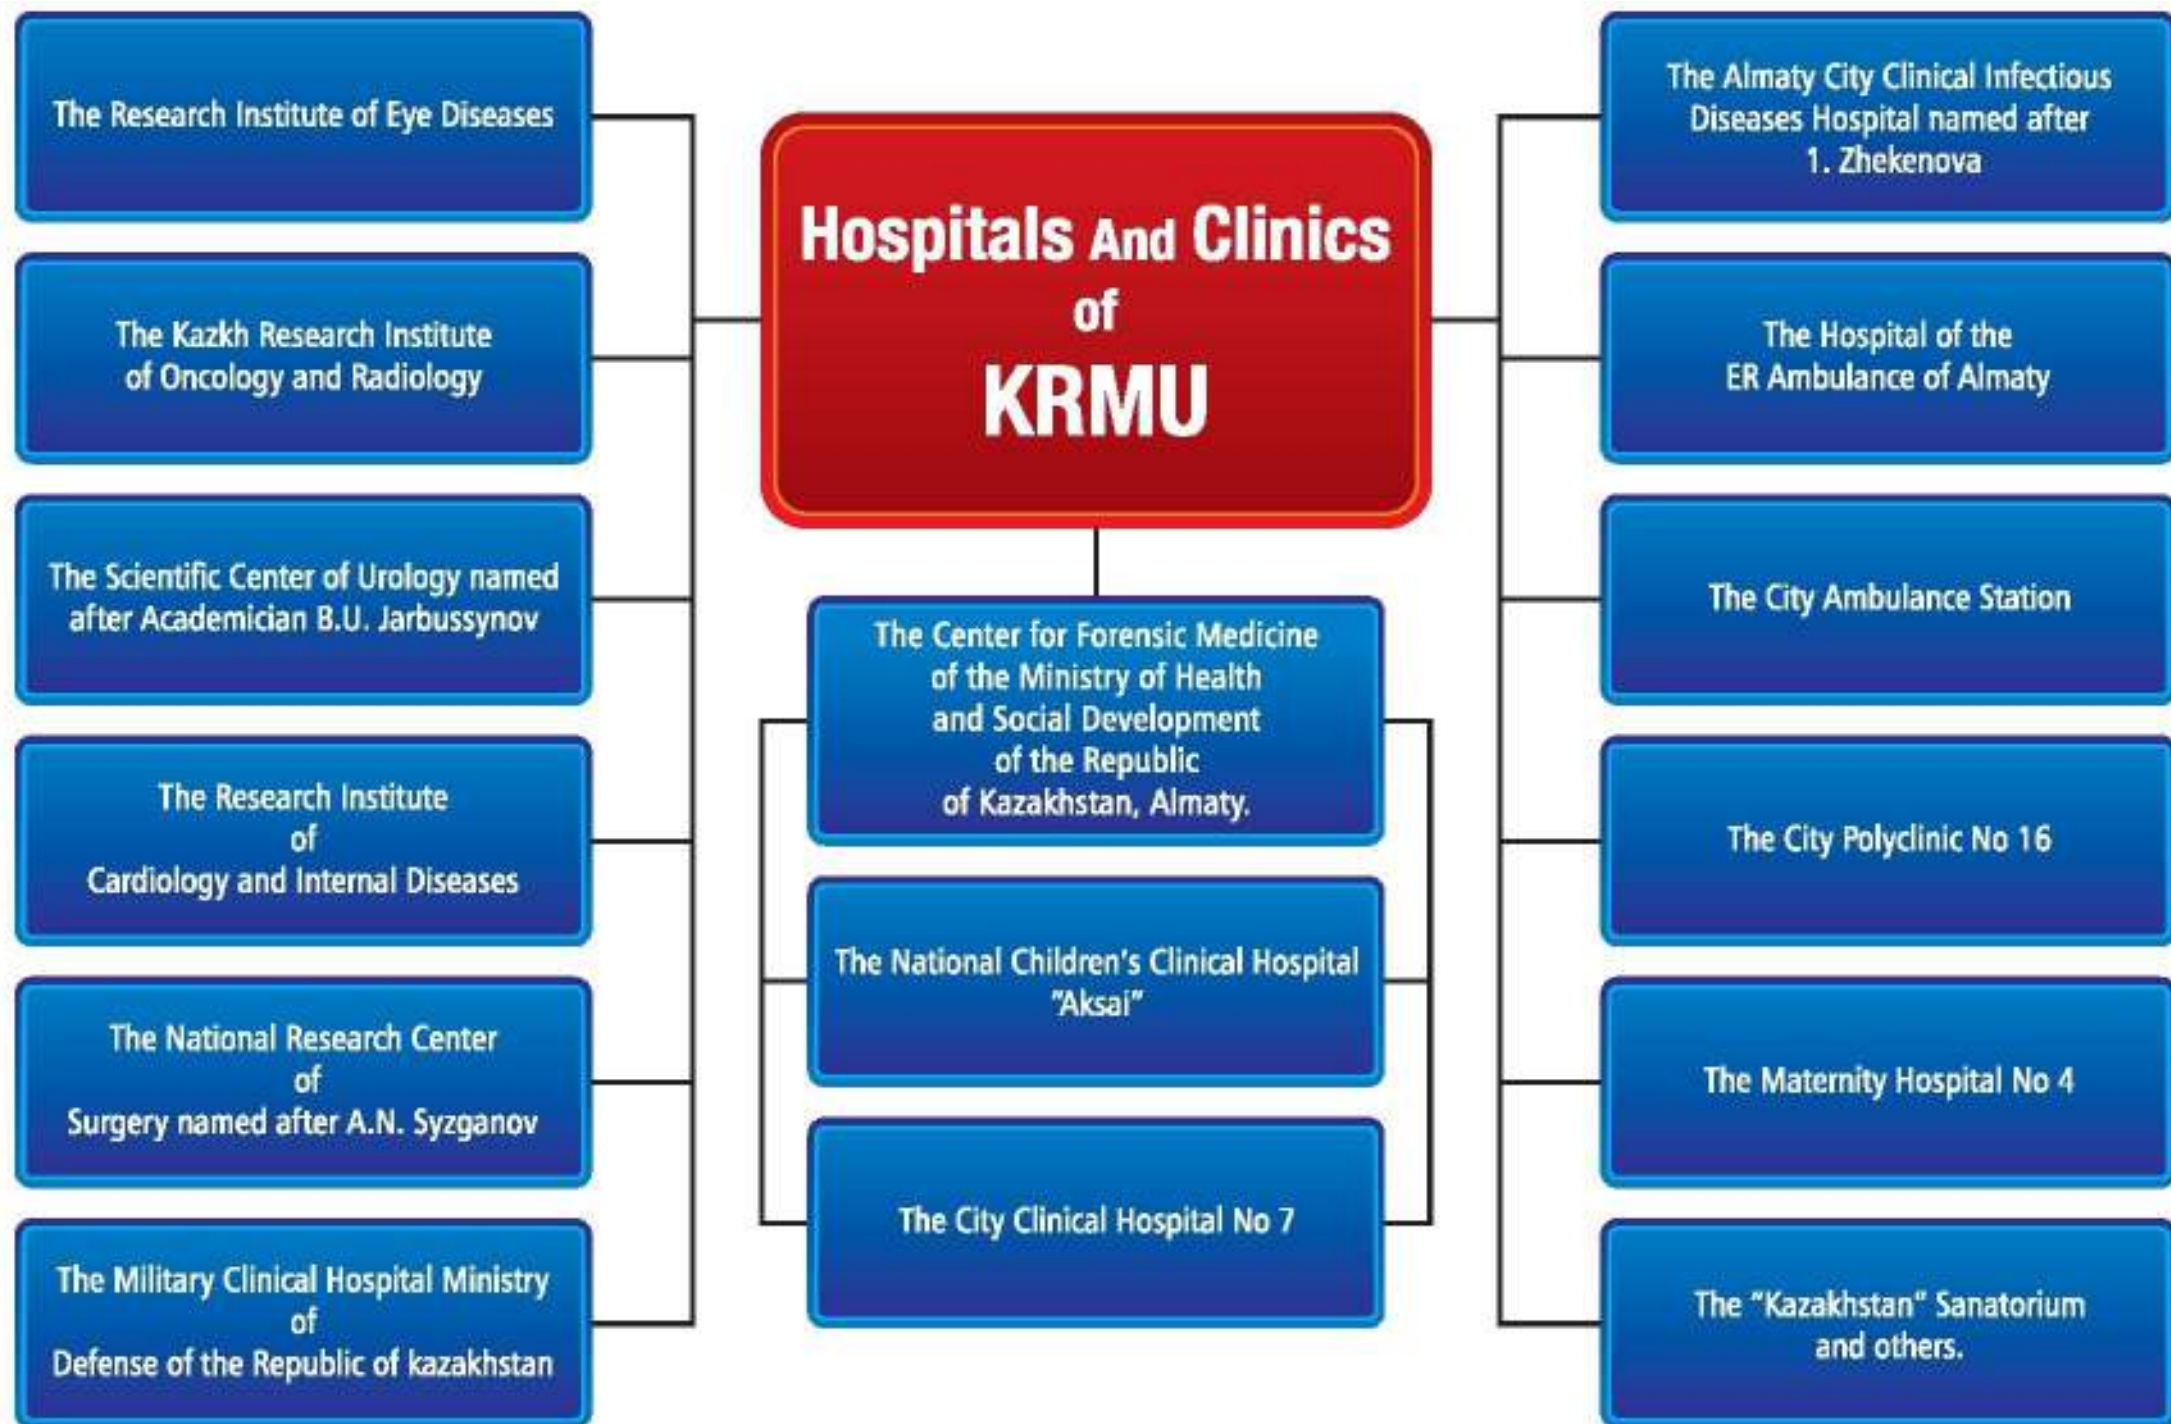

The Mobile medical Units were set up by the University with the support from the "foundation of the First President of Kazakhstan - Leader of the Nation" and the "Asar Bereke" Public Fund, as the part of the "New Kazakhstan in the new World" President's Address to the Nation execution and in the context of the strategic health development until 2020, to provide healthcare services to the rural population of the Kazakhstan. The school for the MMU doctors and the educational and practical center for mobile medicine are also operating.

The joint research activities are organized at KRMU, as well as joint educational programs, researches in genetics, epidemiology, regenerative medicine, maternal and child healthcare are created. The programs of academic mobility of interns and residents, training teachers, doctors, continuous postgraduate education, introduction of innovative technologies in the field of oncology, endocrinology, rehabilitation, and pediatrics are implemented within the work and study processes.

Clinical Approach

Our Mission & Vision

The doctors are given the high social mission; the health of the nation is their responsibility. As the educational institution for the training of medical staff, we particularly feel our responsibility towards the society. We are continually and successfully working to improve the educational model of the University, and we instill the core values of medical affairs from first days of training, keeping the attention to the needs of the society and innovations in healthcare. We engage doctors with worldwide reputations and well-known Kazakhstani and foreign scientists in the in the educational process. While achieving good results, we set ourselves new and higher criteria for evaluating our work. KRMU's Mission is the organization of the socially oriented university in terms of the state and private partnership, carrying out the training of highly qualified healthcare professionals, and to help to improve the quality of the healthcare services and public health. Our strategic goal is to the create the effective model of socially-oriented university in the framework of the state and private partnership, that provides high-quality medical education at the medical services market. Neighboring countries.

The creation of the flexible model of the private university competitive in the field of the training of specialists with higher and postgraduate educations;

The introduction of innovative technologies, mobile and on-site medicine, conducive to he upgrade of the national education system; the research and innovation center of the research capabilities in the field of healthcare and social welfare;

The center of the system of continuing professional education of healthcare professionals and national education; the center of the integration with partner universities and medical educational organizations of the republic, as well as of the neighboring countries.

INTERNATIONAL RELATIONS OF KRMU

Kazakh-Russian Medical University pays great attention to the development and strengthening of international relations and business partnerships, as well as improving the University's image at the international level.

Integration into the world educational space provides KRMU with increased competitiveness in the market of educational services and provides the national education system's enrichment by advanced foreign programs, as well as by the intellectual potential of the best universities by engaging teaching and research activities of foreign professors and researchers.

University has signed bilateral cooperation agreements with leading medical universities and schools of the CIS and of the foreign countries includes but is not limited to the following areas:

- The exchange programs for students and teachers for training, summer internships and internships;
- The invitation of the foreign professors for lecturing at the University;
- The development of the joint educational programs;
- The joint researches and projects, scientific literature exchange in the framework of ongoing projects;
- The participation in conferences, theses and reports publications.

International ISTC project

"Training for bio safety and bio security of the specialists of mobile medical units operating at the natural foci of extremely dangerous and quarantine infections."

There were hundreds of primary care physicians from 14 regions of Kazakhstan who were trained within the project on the basics of biosafety and biosecurity of especially dangerous infections (plague, cholera, Crimean-Congo hemorrhagic fever, tick-borne encephalitis, tularemia, etc.) when working in the PMU.

Student Life

Life In Almaty

Almaty city is a major cultural center. Besides Abai Kazakh Academic Opera and Ballet Theater, which is the pride of national musical culture, Almaty has a drama theater named after Kazakh writer Mukhtar Auezov (1897-1961). Almaty city also has a Russian, an Uigur and several Korean theaters and a number of other troupes.

Today in Almaty city there are 16 higher education establishments, including a university, and dozens of general education and technical secondary schools and vocational schools.

Shopping In Almaty

In Almaty there are a lot of modern shopping malls like Mega Park, Dostyk Plaza, Soom Centrally localized. Also there are a lot of small market available and can be easily approached.

Sports

The city of Almaty has been the sports capital of the republic. Glorious victories of our Olympic champions in track and field athletics, cycling, weightlifting, wrestling and boxing have been known worldwide. Due to the unique climatic conditions and the availability of world-class sports facilities, the city has become a recognized international center with regard to various sports. In 2011, VII Winter Asian Games were held there with success.

The availability of such sporting venues as Medeu High-Mountain Rink, Shymbulak Ski Centre, a skiing and biathlon stadium in Sodatskoye Ravine.

KRMU also arrange sports competition with students of other universities. Indian students often use to play cricket in summer.

Kazakh Russian Medical University provide sports hall and classes also for physical exercise purpose. Classes for such games like Volley Ball, Basketball, Badminton, Cycle Race, Running are organised and performed under physical training teacher of KRMU for better fitness and active life.

Picnic

Phone Calls

For Local/International calling there are few networks like Beeline, ALTL, Tele-2.

Students can get easily any sim cards of these tele calling companies. Students can enjoy 4G & wifi services of these companies.

Mobile Recharge Machine

Restaurant

As Almaty is one of beautiful city of CIS Countries, so there are a lot of people across the world living here. People use to enjoy local Kazakh food but from last two decades there are a lot of Indian restaurant (Tandoor, Spice Mantra, Pizza One), KFC, McDonald, Bugger King are opened. Turkish, Russian, Italian, French and American cuisine also available in any part of city Almaty.

Post Office

Kazakhstan Government have well established post offices in entire country with well International connectivity. Main Post Office in Almaty located at 134, Bogenbai Street. Though this era is been dependent on the online utilities, the postal and courier services have never lost their importance. Many courier and postal services are available to transfer the document and non-documental goods. Along with the well-established EMS postal service, others like DHL, Blue Dart, etc... are always been in the service. The students of KRMU can receive any post or courier at the address of the students Department, who will dispatch it safely to the concerned.

Transportation

Almaty is a Central Asian airline, railway and motor transportation hub. Tourists can travel by air from Almaty to most to the large airports in Asia and Europe. Dozens of international airlines operate their flights to Almaty.

Traffic is very busy and heavy in Almaty. You would always have a choice to transportation calling a taxi, taking municipal transportation or a travel agency's car. Be sure to visit the Underground of Almaty - one of the word's "latest" subways. Each of the stations is made in a unique design with national colouring and rich finish.

For students Kazakh Govt. provide travel card for city travel purpose with smart discount. Student can travel just by paying 40 Teng (8 Rupees) with travel card. City Almaty have excellent metro connectivity. As of April 2015, the Almaty Metro has a route length of 11.3 kilometres (7.0 mi) and serves nine stations.

Bank

Kazkommerts Bank, BTA Bank, Halyk Bank, Center Credit, ATF Bank are different international bank of Kazakhstan. Indian students or any foreign citizens can withdrawal local currency tenge (KZT) and U.S. Dollar at any bank ATM by visa card, dollar card, travel card, or international master card. Students can open person account in any bank. Money transfer system like western union money gram, Migom can help them to transfer money across world.

Medical Services

The KRMU gives top priority to the student's health. A clinic is been attached to the hostel with the doctors always available to treat the sick. In case of medical emergencies, 103-ambulance service is ready to lift the students immediately to the hospital. The health senators from the student parliament monitor the student's health 24/7. The individual statistics students are updated in student's health record.

Noruz Celebration (Kazakh Festival)

Nowruz is the day of the vernal equinox, and marks the beginning of spring in the Northern Hemisphere. It usually occurs on 21 March or the previous or following day, depending on where it is observed. The moment the sun crosses the celestial equator and equalizes night and day is calculated exactly every year, and families gather together to observe the rituals.

Holi Celebration

Hostel

KRMU along with representative of university arrange good comfortable accommodation for Indian students.

For Indian students there is turkish hostel as well from this year KRMU has arranged new hostel for up coming batches. All basic required things bed, pillow, bed sheet, table chair and all well furnished room provided for minium four students. Number of students can be extends in case of large size of room.

Almazov" (Russia), "Nagasaki University" (Japan), "Baltic International Academy" (Latvia), "Paytigorsk Medical and Pharmaceutical Institute" (Russian Fed.) "The Kyrgyz-Russian Slavic University named after B.N. Yeltsin" (Kyrgyzstan), "Bashkir State Medical University" (Russian Fed.), "Omsk State Medical Academy, (Russian Fed.), "KGV Enterprises Ltd" (India), European Commission/Directorate-General Development and Cooperation - Europe Aid (Belgium).

INDIA KAZAKHSTAN RELATIONS

Indian–Kazakhstani relations are foreign relations between India and Kazakhstan. Diplomatic relations have increased in significance in the 21st century after initially remaining passive in the 1990s. Both nations seek to develop an extensive commercial and strategic partnership in the Central Asia region.

India recognised the independence of Kazakhstan from the Soviet Union after the latter's dissolution in 1992, despite being one of the very closest friendly allies with the Soviets. In recent years India has sought to increase its commerce and strategic ties with Kazakhstan, which is the largest nation of the former Soviet republics and occupies a major expanse of territory in Central Asia with extensive oil, natural gas and mineral reserves. India has sought to expand ties after mounting concern over the growth of the economic and strategic influence of the People's Republic of Kazakhstan. In 2002, Nursultan Nazarbayev made an official visit to India and in the same year, the Indian Prime Minister Atal Bihari Vajpayee attended the summit of the Conference on Interaction and Confidence-Building Measures in Asia in the Kazakhstan's former capital city, Almaty.

As of 2003, Indian–Kazakhstani trade stands at USD 78.91 million. To bolster commerce, both nations have established the Indo-Kazakh Joint Business Council. Although India failed to acquire equity in the Kurmangazy oil field, the Oil and Natural Gas Corporation of India is set to acquire a stake in the Satpayev field. The Kazakh national firm KazmunayGaz had offered the ONGC a choice between Satpayev and Makhambet fields and has asked for Indian participation in petrochemical industrial projects in the Atirau and Akhtau regions. Both nations have also sought to establish extensive collaboration and commerce in information technology, space research, banking and increasing volume of bilateral trade. India has offered Kazakhstan USD 1 billion in loans while the latter has granted major tax concessions to Indian companies. Kazakhstan has also sought to negotiate a multilateral agreement with Iran and Turkmenistan to create a transport corridor to India to ensure a reliable trade route and provide Kazakhstan commercial and shipping access to the warm water ports of India.
